PIXELTRENDANALYTICS / AI BUILDER CUP 2026

BatchLens

A factory story. A real AI investigator.

One leaking cap. Four shipments. Pip follows the evidence, compares possible causes and proposes the next useful inspection.

Gemini reads original records and calls validated tools. Operators approve missions, record results and review the handover.

ACTUAL PROTOTYPE / EXPLORE THE NORTHSTAR FACTORY

Mira / Evidence

Read sources. Review the facts.

Sol / Assembly

Follow the lot. Compare scope.

Pip / Investigator

Propose a check. Reassess results.

GEMINI ON VERTEX AI / CLOUD RUN / FIRESTORE

Synthetic case and operator results. Live AI. Human-reviewed decisions.

Manufacturing: Intelligent Operations & Industrial Efficiency
